Explanations and definitions:

- ✓ The ultimate and final decision on the assigned category lies with Wallter.
- ✓ The criteria indicated above to determine the category apply in most cases, but not always.
- ✓ **EEA** - European Economic Area. A list of countries that are members of the EEA is provided below.
- ✓ To be considered an EEA-based company, the following requirements must all be met:
 - The company applying for the account is incorporated in an EEA member country.
 - The companies forming the ownership structure (if any) of the applying company are incorporated in EEA member countries.
 - The Ultimate Beneficiary Owner (UBO), director(s), and shareholder(s) each have a passport issued by an EEA member country.
 - The company's headquarters is in an EEA member country.
- ✓ Wallter maintains a list of business activities it considers to be higher risk in nature. The list contains business activities that require relatively more time and effort to assess and manage compliance risk on an ongoing basis. A list of higher-risk business activities is provided below. Any business activity not on the list below is considered a lower risk in nature.
- ✓ In the case of ICO activity, high risk will be assigned, regardless of where the company is based.

Other Considerations:

- ✓ Any fee deducted by a third-party bank will not be compensated by Wallter.
- ✓ **SEPA** - In the SEPA (Single European Payment Area) scheme, Switzerland, Monaco, San Marino, and Gibraltar participate along with EEA countries (EU countries, Iceland, Liechtenstein, and Norway).
